

# PORTFOLIO

electrical systems

# electrical installation design team

We offer services in the design of electrical and telecommunication installations. We specialize in the design of electrical, low-current, and BMS systems. Our experience includes residential, office, high-rise, retail, hotel, industrial, educational, medical, and religious buildings, as well as airport facilities.

We support LEED, BREEAM, WELL, SmartScore, WiredScore, and ActiveScore certifications, fit-out projects, and multi-family developments. We also provide investment advisory services and designs for linear infrastructure with full administrative support.

Meet our designers:

Michał  
Horyński

Krzysztof  
Flak

Kamil  
Kalinowski

Artur  
Łucka

Tomasz  
Kopeć
